

DEVERGO
BLUE JEANS AND SHOES LTD.

DEVERGO

HISTORY

Established in Veneto, Italy in the early 1980's, the Devergo brand created its history through developing uniquely identifiable products for the youth that wanted to make a statement of originality and diversity. To date the core design process is still being created in Italy from the original Italian designers, with the Headquarters of the company being based in Budapest.

PHILOSOPHY

From the day the company was founded, the DNA of the brand has remained unchanged, aiming to promote and develop a young casual men's and ladies line, focused in heavy product development, hard washing techniques, aggressive colorings and innovative fabric combinations in all the apparel products. Devergo is considered a superior value for money brand, offering a superbly designed product with identifiable attributes and enhanced quality in affordable prices. We are a quality driven brand with intense product orientation offering a total range for men's and women's clothing, jeans + shoes.

HIGHLIGHTS

Our seasonal influence is the Sasquatch concept with beautiful jackets in canvas, elaborated shirts and tops with unique developments and our original constructed work denims. Not to miss is our Ivy collection with flamboyant college looks and preppy character.
